

DAILY PROGRESS REPORT

26th November, 2022.

We held a meeting on Google Meet to officially meet and begin deliberations as a team. We chose a team name, after introducing ourselves and our stacks.

Name of team - **Hackstars**

<u>Members</u>	<u>Discord name</u>	<u>Location</u>
<u>Yemi Jeff</u>	<u>@Jeph.eth</u>	<u>Ibadan</u>
<u>Adeola Aderounmu</u>	<u>@DeeOla</u>	<u>Ado-Ekiti</u>
<u>Ayobami Ogunlade</u>	<u>@Aynerd2</u>	<u>Ado-Ekiti</u>
<u>Omodolapo Babatunde</u>	<u>@Babsbarokah</u>	<u>Kaduna</u>

We went on into discussing which vertical to go along with and interestingly, **Education**, resonated well with each of us. We further narrowed our choice of angle to explore and agreed on **Climate Education**.

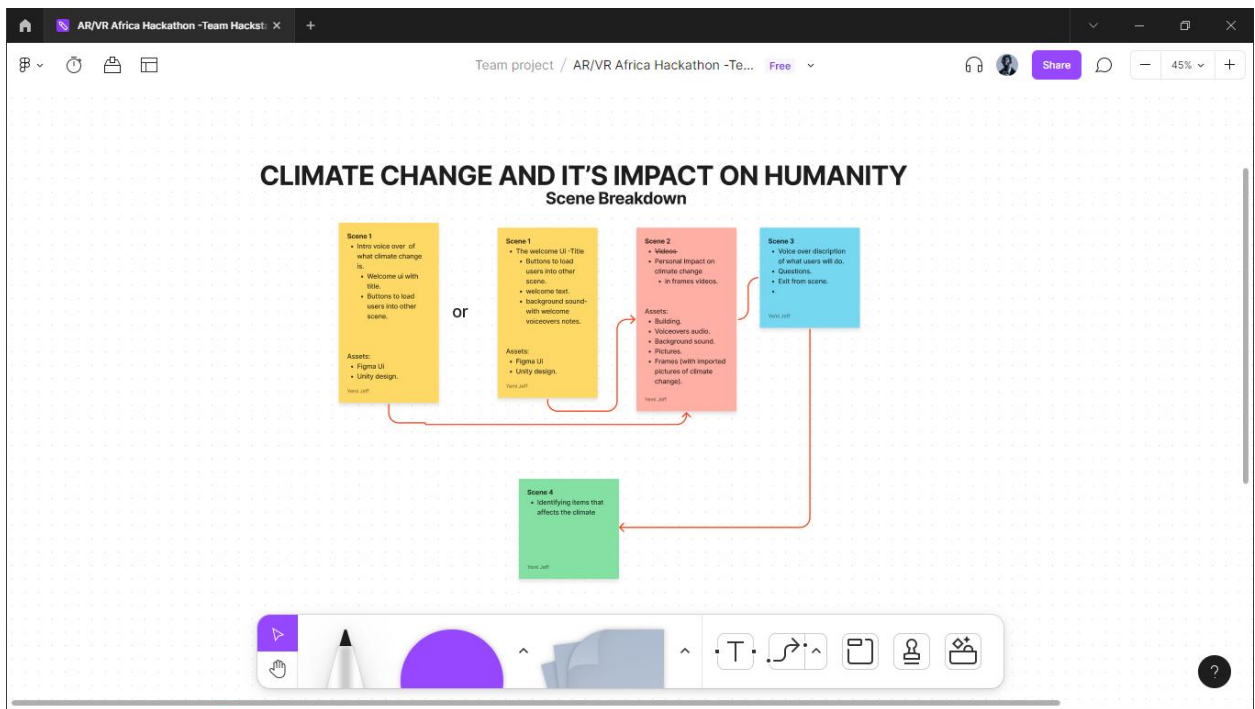

We went into real time brainstorming session, we debated on:

- Title to go with
- Content, call to action

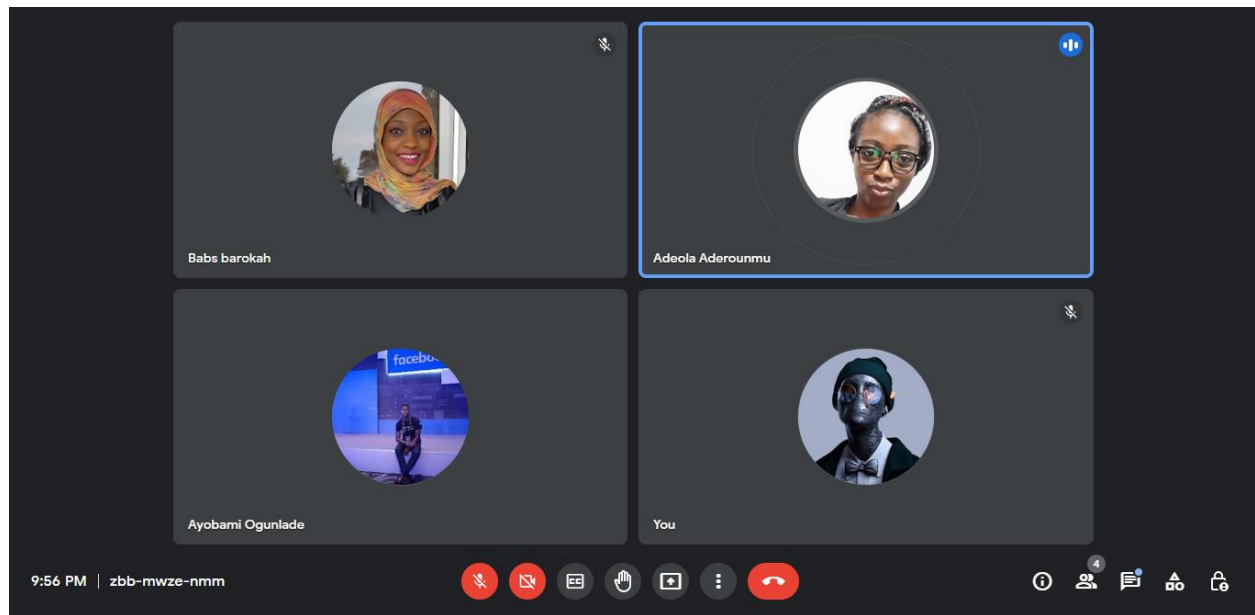

- Number of scenes
- Content per scene
- Resource needed per scene.

We were able to come up with a rough draft drawn from the sketch of ideas from the above points.

With this progress, we decided to adjourn the meeting to tomorrow, Sunday, 27th November.

Figma brainstorm session on scenes breakdown.

First hack meeting
